THE BLAIRMORE PHARMACY

Gordon Steeves, Prop. Phone 110 Blairmore, Alberta

It is stated that Kimberley will at once erect an artificial ice rink. With hockey getting a grip on the public as never before, a town that wants a real hockey team must have artificial ice.—Ferne Free Press.

Social Credit is not going to be introduced by members of the provincial or dominion house going around making grandiloquent speeches or writing long articles to their newspapers, expatiating on the Utopia it will make of the province. What the people want is some tangible evidence that

TORONTO MEN ARE RESCUED FROM PIT

After being entombed in an old pit of the Moose River gold mine in Nova Scotia for eleven days, Dr. D. E. Robertson and Alfred Scadding, two of the three Toronto men, were brought out alive on Wednesday between 9.45 and 10 p.m., mountain standard time (12.45 to 1 a.m. A.S.T.). The third man, Herman Magill, died of exhaustion before being reached. The rescue is said to have been one of the most heroic in the annals of Canadian mining.

On being brought to the surface, Dr. Robertson appeared to be o.k. and was somewhat cheerful. The condition of Scadding was such that he had to be rushed to a Halifax hospital by airplane.

Robertson and Magill were joint owners of the mining property, a recent purchase.

RAILWAYS FAVOR MOTHERS' DAY

Montreal, April 21.—Opportunities for out-of-town sons and daughters to entertain their mothers on Mothers' Day, Sunday, May 10, or fathers on Fathers' Day, a little later, are being given this year by the Canadian Pacific Railway, according to announcement today by G. E. Carter, general passenger agent of the company. For these two important days in the lives of all parents, the Canadian Pacific Railway is featuring a delivery service of railway tickets, whereby a son or daughter can pay for the transportation at the nearest Canadian Pacific office in the municipality where he or she resides, and the order will be sent by telegram to the parents' home-town office and delivered directly to the home without extra charge. This service proved very popular last Christmas and New Year and is expected to provide a happy holiday for parents with out-of-town children on Mothers' or Fathers' Day this year.

PROVINCE WARNS TO REDUCE RELIEF COSTS

A letter has been circulated throughout the province by A. A. McKenzie, Alberta relief commissioner, warning municipalities that relief must be discontinued or definitely reduced, in order to relieve the taxpayers. All issuing authorities are advised to check very carefully, and after May 1st, forward statement of those absolutely dependent. Relief recipients are warned to exhaust every resource in order to obtain work. They are also advised to arrange affairs in such a way as to reserve a portion of money wages during the summer months to carry into the winter.

"It is impossible," says Mr. McKenzie, "to give any assurance that Unemployment Relief will be continued indefinitely."

Those who have been on relief are also warned by the provincial department to plant and care for gardens in order to have a winter supply on hand.

THE MOOSE RIVER GOLD MINE

The Moose River gold mine, which held three Toronto men trapped for 11 days, is situated in the centre of the "Goldenville formation," one of the two gold-bearing geological divisions of Nova Scotia.

The Goldenville formation is a wide zone of interbedded slates and quartzites. The quartzite strata contains the gold.

Loosening of the weaker slate strata by water seepage is believed by Foreman D. F. Henderson, of the mine, to have caused the fall of rock which made a natural dungeon of a 141-foot deep tunnel for the three men.

Removal of the quartzite in recently renewed mining activities there did not affect the structure of the area, Mr. Henderson thought.

This district, lying 75 miles north-east of Halifax and 20 miles inland from Ship Harbor, was first prospected in 1876 and mining operations began the following year, when several shafts were sunk.

Lumbermen are believed to have first discovered gold at Moose River in 1866, when rock was being blasted from the stream to clear a way for logging operations.

The Moose River Gold Mining Company was organized in 1881 and began concentrated operations the following year. Several shafts were operated for a time by the company and then it leased various leads on the property to individuals.

With varying degrees of intensity and several periods of inactivity, the district has been mined by individual and subsidiary companies until several months ago, when Dr. D. E. Robertson and Herman R. Magill, two of the Toronto men trapped, brought the entire property.

Operations were renewed two months ago and the two owners were inspecting the property when the cave-in occurred.

Clareholm's estimates for the year 1936 provide for \$16,300 to operate the school for the year. Of this amount, \$11,250 is to cover teachers' salaries, \$150 for secretary, \$1305 for janitor, \$75 for trees.

Whether they want to or not, Alberta teachers must now pay membership fees to the Alberta Teachers' Alliance. School boards are bound under the amendment passed by the legislature to deduct from \$5 to \$10 per year, according to the amount of salary, from teachers' pay cheques, and substitute teachers must pay for a month or fraction thereof 50 cents.

Teachers, as in trades and professions, need a union to protect their interests, but compulsory membership instigated by the secretary of the Alliances in collaboration with the minister of education is against the principles of democratic government.—Coleman Journal.

NO ACTION YET TAKEN ON BOULEVARD

Blairmore's town fathers, with Deputy Mayor Henry Zak occupying the chair, attended the business before the last regular meeting of the council for the month of April with such despatch last Monday night that when the hour of 10 o'clock came the table was clear of all business and the meeting adjourned.

Charles Sartorius, proprietor of the new Blairmore Motors garage, requested the town to lay a cement walk from the corner of his garage on Fifth avenue as far as the Columbus hall. He agreed to pay for half of the cost. The application was referred to the public works committee to be dealt with as they saw fit.

Some discussion took place on the usefulness of Tim Buck boulevard on main street. Some of the councillors were of the opinion that the boulevard should be removed, while others thought it was serving a useful purpose and that it should be left alone.

After some argument the matter was finally dropped and no action taken. The large electric Neon sign in the centre of the business section, which has failed to function for the past several months, also came up for discussion. When it was pointed out that the sign was of private enterprise and private property, discussion was finally dropped.

Ways and means to beautify the two new parks came up for consideration. The whole area of the park opposite the Cosmopolitan hotel will be seeded with lawn grass, while the park east of the R.C.M.P. barracks will be divided into garden plots.

Accounts amounting to approximately \$370 were passed for payment and the minutes of the last regular meeting were adopted.

A special meeting of the council will be called later in the week to deal with certain power and water charges billed against the town, upon which the water and light committee were unable to deal with at the regular meeting, due to the fact that they were not in possession of certain desired information.

With the advent of spring, the council declared May 9th Arbor or clean-up day, and expect all premises to be cleaned up by that date.

If a satisfactory deal can be made with the Red Trail Motors, a town utility truck will be purchased from that firm.

Councillor Evans strenuously objected to the payment of transportation fee to a relief recipient not living in Blairmore for the last two years and drawing relief from the town of Blairmore, so that he could come into Blairmore and work off the amount of relief he has received.

The full slate of councillors, which included E. Womersley, J. Krkosky (senior), J. Aschacker, Albert Olson, Henry Zak and W. L. Evans were present. Mayor Wm. Knight being absent.—Ex.

A BIG ADVERTISING CAMPAIGN

Last week The Blairmore Enterprise was included in a cross-Canada advertising campaign of the Imperial Oil Company.

We would particularly invite our readers to look carefully over the Imperial advertisements, for in a small way they will give you some idea of this company's many activities throughout Canada.

It is a big job providing petroleum products for Canadians from the Atlantic to the Pacific, and from the international boundary of the Arctic. It makes a great story and the advertisements in The Enterprise should interest our readers.

The largest salary paid in North America is \$364,482 paid to Thomas J. Watson, head of the International Business Machines corporation. Will Rogers' salary, paid by a movie company, was \$224,214.

TO CONDUCT SCHOOL IN FINE ART AND DESIGN

The Provincial Institute of Technology and Art will conduct a summer school in fine art and design at Banff from August 3 to August 21, in co-operation with the Extension Department of the University of Alberta and with the financial assistance of the Carnegie Foundation of New York. It is desirous to make this facility known and available to as many persons in the province as have aptitude in this subject and with this in view fees are merely nominal. To encourage those who would profit, the committee in charge will offer to the person in each of the several districts named, who makes the best drawing or painting within the district, according to the rules indicated below, a scholarship to the value of \$10.00 as payment of fees for tuition at the summer school. It is hoped that many will avail themselves of this opportunity and participate in this contest.

One scholarship will be available for each of the following districts in Alberta: Coleman, Blairmore, Hillcrest, Bellevue, Banff, Camrose, Pincher Creek, Macleod, Cardston, Magrath, Raymond, Lethbridge, Taber, Carmangay, Claresholm, Nanton, High River, Medicine Hat, Empress, Blindfold, Bassano, Brooks, Gleichen, Strathmore, Carstairs, Didsbury, Olds, Red Deer, Lacombe, Ponoka, Westsaskatoon, Leduc, Edmonton, Grande Prairie, Peace River, Westlock, Edson, Jasper, Fort Saskatchewan, Mundare, Vegreville, Vermilion, Lloydminster, Camrose, Youngstown, Hanna, Tofield, Viking, Wainwright, Hardisty, Provost, Custer, Stettin, Big Valley, Oyen and Drumheller.

The rules governing the contest are as follows:

1. The competition will be open to any person over sixteen years of age residing within the area including and adjoining the place named, who will be classified as belonging to the district.

2. A scholarship will be available for each district named.

3. Any subject from landscape, still-life, or life, may be chosen as the subject for the picture submitted. Pencil, pen, charcoal, pastel, crayon, watercolor, or oil, may be used as a medium in making the picture.

4. Only one picture shall be submitted by each person. The picture should be at least 8 inches by 12 inches in dimension.

5. The pictures may be sent, post-paid, direct to the Provincial Institute of Technology and Art, Calgary, to be received on or before the 15th of June, 1936.

6. The name and address of the maker of the picture shall be written plainly on the back of the picture, which will be returned after the pictures have been judged.

7. A statement from some reputable person within the district, such as teacher, minister, postmaster, parent, to the effect that this is the sole work of the person claiming the picture, and recently done by the person, should be written on the back of the picture and signed.

8. A committee of artists on the staff of the Provincial Institute of Technology and Art will select the picture considered the best from each district and award to the maker of the picture a scholarship granting free tuition at the Banff School of Art, which will be conducted for a three weeks' period from the 3rd of August to the 21st.

9. The decision of the committee shall be final.

10. The committee of judges will reserve the right to withhold a scholarship from any district where it is clear, according to their judgment, that the ability of the entrant is such that he would not profit by the program at Banff.

This competition is not restricted to young people or to those attending

"Serve the Church that the Church May Serve You."

BLAIRMORE UNITED CHURCH

Sunday services: Directory class at 10.30 a.m. Sunday school 3 p.m. Salvation meeting 7.30 p.m. Come and enjoy an hour in God's house.

Monday at 7 p.m.: Y. P. Legion.

Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend. Friday, 7 p.m.: Young people's meeting.

Special Notice to Mothers

A very unique Mothers' Tea will be held at the Army hall on Saturday, May 2nd, from 3 to 6 p.m. Carnations will be sold in connection with Mothers' Day, also other articles made by the boys and girls of the Legion. Mrs. Weir and the Legion girls are working hard to ensure a profitable time for all who attend this special tea. Tell your friends.

school. The school was primarily instituted to be of major interest to persons over sixteen years of age with aptitude in Art, especially landscape art. It will be under the general direction of Mr. A. C. Leighton, R.B.A., who because of ill health will not be present in person this summer but whose plan will be carried out.

Mr. H. G. Glyde, A.R.C.A., will be in charge and will have competent assistants so that a beginner with a special desire for Art may profit by the opportunity available.

The scholarship will be valued at \$10.00. A \$10.00 fee will be collected from all who attend as a general special fee to make a fund for social purposes among the group.

Housing and boarding accommodations may be secured in Banff at reasonable rates ranging from furnished cottages to the expensive accommodation of the Banff Springs Hotel. Furnished cottages may be had to accommodate two to six persons at rates ranging from \$1.00 to \$2.00 per day, or lower rates per week.

Any person interested in Art will be eligible to attend these classes on payment of the regular fee.

The Provincial Institute of Technology and Art conducts a summer school from July 6th to August 17th, 1936, giving instruction in Wood Shop, Metal Shop, Automobile Shop, Electric Shop, Drafting, Sewing and Cooking.

For further information communicate with the Provincial Institute of Technology and Art, Calgary.

Now, since it's made compulsory that teachers shall become members of a union, why not go ahead and compel all who are in any way connected with the liquor business in Alberta to join a liquor men's union? It might include not only Mr. Aberhart and Mr. Manning, but some others who profess to be strongly opposed to liquor.

Jack Miner's Birthday

Famed Naturalist At 71, Counts His Wealth In Friends

Jack Miner celebrated his 71st birthday April 10th. Edgar A. Guest, the Detroit poet, terms him "the best beloved Christian in America"; while Irvin S. Cobb, writer and humorist, says "Jack Miner is the greatest practical naturalist on the planet." An editorial in the "Ottawa Citizen" says: "Not Watt, but a succession of inventors made the steam engine; not Bell, but many electrical experiments made the telephone. Jack Miner, in this sense, has given us the bird sanctuary."

In other words, popularized the sanctuary idea. While his hair is turning some what white, otherwise no one can notice the years creeping on him, because he is as active and as enthusiastic in his study of bird life as he was twenty years ago.

JACK MINER, NATURALIST

The world knows he is poor financially, and he says: "My biggest asset is my friends throughout the world, and the good health the good Lord has blessed me with. The friends are something money cannot buy. Some men can count their money, but I can't count my friends."

In his birthday interview, he said: "If it were not for children, flowers, birds and music—especially children I would have no desire to carry on." And his advice to young men was: "Don't work all your life to make a living, but work to live all your life."

When asked what he thought about world affairs, he said: "The hope of the world is more love and the right kind of education, and less bayonet-point compulsion."

Speaking of religion, he said: "There is too much 'churcharny' and not enough Christianity, and the world needs more evangelism and less 'apologetics'."

Everybody knows he never uses tobacco in any form, and never drinks anything stronger than water; but he said to-day, "You cannot judge the size and quality of any man's heart by the smell of his breath."

In closing the interview, he said: "Be sure you're right and then go ahead, because you will be criticized if you don't; so, do and be criticized; but to escape criticism, say nothing, do nothing and be nothing."

According to a theory of two English scientists, magnetic storms that interfere with telegraph and cable service are due to a ring of electric current that surrounds the earth like Saturn's rings.

An explorer reports that he has discovered a bean in Southern Asia that grows at an astounding rate. The usual procedure is to place the bean in the ground and then jump clear.

MILLION DOLLAR WRIGLEY SIGN STARTS OPERATION

The new Wrigley's Spearmint Gum Sign on Times Square, New York City, a million dollar project, largest of its kind in the world, was formally dedicated and put into operation on Saturday evening, March 28th. The sign occupies the entire block on Broadway from 44th to 46th Street on the east side of Times Square. The new sign is a super-structure on the top of a two-story steel and concrete building built especially to bear the tremendous weight of the display. This world's largest spectacular lowers ten stories high; the Spearman on the sign has a grin a yard wide. The package of Wrigley's Spearmint is larger than a boxcar.

The sign shows gigantic, multi-

coloured, tropical fish swimming about the sky; the largest fish measures 42 feet from tip to tail. The flashing mechanism consists of 21 pieces of apparatus, all operating in unison, but no one piece is synchronized with another. The electrical current required for this huge display would serve a city of ten thousand. There are 1,084 feet of neon tubing and almost seventy miles of wire used. The investment on the entire project is a cool million dollars.

Hundreds of thousands of people will pass the sign each day; the number who pass daily through the subway at Times Square is estimated to be almost equal to the population of Toronto.

Have Every Freedom

Spanish Women Not Cloistered As In Old Days

The long-sheltered women of Spain have been coming from behind the romantic iron grills that used to shut them off from the world to invade fields once closed to them. While 25 years ago the number of women in Spanish universities could be counted on the fingers of the hands, to-day in some of the faculties, such as philosophy and literature in the University of Madrid, there are more women than men.

The republic overnight gave Spanish women the vote and in Madrid more women voters are registered than men. Where a woman, distinguished in some branch of learning used to be a rarity, to-day there are scores of women whose names are known throughout Spain.

Years ago most Spanish girls could not go out unattended until an advanced age. Those in moderate circumstances went with their mothers or married sisters. Those in wealthy families were attended by dunnas who never left them alone in public for a moment. To-day girls, alone or accompanied by companions of their own age, are seen in public just as in other parts of the world.

Life is just a merry-go-round. We have to work to get a loan and then work twice as hard to get rid of it.

Part of South Africa's government mint in Pretoria may be converted into an ammunition factory.

Dividing Of Territory

Nations With Vast Expenses And Those Who Have Not

Nations of the world could be divided into two classes—the "haves" and the "have-nots."—Major-General W. A. Griesbach, of Edmonton, told the United Services Institute of Nova Scotia at its annual meeting in Halifax.

One class, including Great Britain, Russia and France, had vast expenses of productive territory, while the other, including Germany, Japan and Italy, had no room for expanding population.

Sooner or later the British Empire, with its tremendous resources, would be challenged, Senator Griesbach said.

"This may mean war and tribulation for us, but history tells us that that is the age long test by which the nations are judged in their struggles to survive, to be happy, to be free, to be secure."

Find Ancient Tomb

Huge Underground Vault Is Discovered In China

Obscure points in China's history are expected to be cleared up as a result of the finding of a huge, unknown tomb near Hauchow, in the northern section of the province.

The tomb dates from about the year 900 A.D. and is made up of so many huge vaulted underground chambers that it is described as "big enough for a house for the living rather than one for the dead."

Matched Crochet for Matchless Chic

PATTERN 5559

Have you seen a smarter pair of matching accessories this Spring? And wouldn't they give your new ensemble that finishing touch you crave? The jaunty, dip-brim hat is quickly crocheted in gimpé, its brim in rib stitch, with the same stitch repeated in the purse flap. A braided cord trims both hat and purse.

In pattern 5559 you will find complete instructions for making the set shown; an illustration of it, and of all the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

YOUR GARDEN

In the fairly large garden there is a special place for fruit. This end of the business is often neglected especially in those not infrequent sections of Canada where the winter is severe and the summer season short. But there is some fruit which may be grown almost up to the Arctic Circle. Under garden conditions where it is possible to furnish more than the usual protection, most things can be grown far north of their ordinary environment. Certain types, it is true, may succumb in a winter such as was experienced in 1933-34, but the trees are not expensive and are easily replaced. Strawberries, gooseberries, currants, Saskatoon berries and cherries are all handy. In garden fruits the beginner is advised to include more of those things which will produce fresh crops or salads early in the season when it is difficult or expensive to get imported supplies. In the Richmond, early apples such as Yellow Transparent, St. Lawrence and Red Astrachan, or some of the new varieties developed by the Experimental Farm authorities, are worth considering. Where space is very limited it is quite feasible, through grafting or budding, to have several varieties of apples on a single tree. This applies to apples and pears especially.

In recent years there has been a good deal of interest in rock gardens which is a very natural development when it is realized that artistic results can be secured. Where the ground slopes sharply this sort of treatment is particularly effective. Large irregular boulders are sunk well into the ground and the little alpine plants are grown in deep earth pockets between. Most of the ground slopes sharply in the rocky slopes of the old lands and in our own mountainous sections. In rock gardens it is possible to grow an ugly washed-out bank into a most attractive miniature garden with a profusion of bloom. In special cases the plants of the catalogue will be listed suitable plants with the height and time of blooming so that there will be no difficulty in making a selection. About 40 different types of all colours and sizes are available from the Dianthus, Forget-Me-Not, Violas, Primulas which grow up to eight inches in height, through the medium sized Alyssums, Arabis, Campanulas, Linarias, to the taller Erigeron, Cerastium, Candytuft, Geum, Pyrola and others.

Climbers play an important part in any scheme of landscape gardening, adding a finishing touch to the scene. About 40 different types of all colours and sizes are available from the Dianthus, Forget-Me-Not, Violas, Primulas which grow up to eight inches in height, through the medium sized Alyssums, Arabis, Campanulas, Linarias, to the taller Erigeron, Cerastium, Candytuft, Geum, Pyrola and others. Peace Conference

Latin-American Government Would Form League Of American Nations

Proposals from three Latin-American governments that a league of American nations be formed to preserve peace in the western hemisphere were made public by the state department at Washington. They were among the specific suggestions sent to President Roosevelt by the heads of 17 South and Central American states in their formal acceptance of the United States government's invitation to the forthcoming inter-American peace conference.

Proposal From Japan

Naval Commander Suggests Dividing Power In The Pacific

A proposal that power in the Pacific be divided among Great Britain, the United States and Japan was voiced in a book by Commander Totsu Ishimaru of the Japanese navy. "Let each of the three reign supreme in its own domain," Commander Ishimaru says in the book, just published, "America in the eastern, Japan in the western, England in the southern Pacific."

Now Science Explains Why So Many People

Past 40

Feel That They're Slipping Losing Their 'Grip' on Things

Many people 'round 40 think they're 'growing old.' They feel tired a lot... 'weak.' Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all! You'll feel like another person! Take either the familiar liquid 'PHILLIPS' or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on the market in a new, convenient form. Each tiny tablet is a teaspoonful of pure, active Phillips' Milk of Magnesia.

PHILLIPS' Milk of Magnesia

SUNDAY SCHOOL LESSON

APRIL 26

JESUS LOOKS AT WEALTH AND POVERTY

Golden text: The rich and the poor meet together: the Lord is the maker of them all. Proverbs 22:2. Lesson: Luke 16. Devotional reading: L John 3:13-18.

Explanations And Comments

The Parable of Dives and Lazarus, Luke 16:19-31. The first two verses of our text has "the most perfect picture of wealth and poverty in any literature." The "certain rich man" we call, for convenience, Dives, the Latin word for "a rich man." The extreme luxury in which Dives was living is portrayed by his costly purple outer robe and fine linen undergarment and sumptuous table. The purple robe was of rich material dyed with the liquid obtained from the shell-fish murex. You recall that Lydia, the first convert to Christianity in Europe, was "a seller of purple." Acts 16:14. The fine linen was made from a sort of flax that grew on the banks of the Nile and was finely woven to be almost transparent.

Lazarus, the name of the beggar, is a contraction of Eleazar, which means "Help of God." He was perhaps given to him to indicate his character, for there is no more virtue in being poor than there is in being rich. This beggar, covered with loathsome sores, lay at the gate of Dives' house, and even the crumbs that fell from the rich man's table, but the only attention he received was from the dogs which roamed the streets as scavengers. These dogs licked his sores and must have increased his misery with their rank tongues.

In time it came to pass that both Dives and Lazarus died. As Lazarus was observed, Dives doubtless died of overfeeding and overindulgence, just as Lazarus, died of undernourishment. The beggar was carried away by the angels into Abraham's bosom.

The rich man is found in torment in Hades.

Aeroplane are being more widely used in mining, for transportation where valuable minerals occur in remote regions.

Two-thirds of the annual 13,000 deaths of mothers in the United States are unnecessary, a statistician declares.

A 1,500-acre tract in Brown county, Indiana, has been made a hunting area where archers can hunt game with bow and arrows.

FLEMING'S FOLLY

— BY — LAWRENCE A. KEATING

SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Kilgo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread". Buzz shoots at Fleming in an uncontrollable fit of anger, but Buster Townsend, Link's foreman, is shot in the stomach, and Fleming is uninjured. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to address a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

Fleming goes home and studies the plans drawn by Tomey to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that wrecks the house, burns him and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

Helen and Link ride to Rawhide for supplies and to obtain funds to carry out the dam project. They meet Roper, who greets Helen and offers to shop with her. Link goes to see the sheriff, who tells him Buzz Hamilton has been paroled, and would arrive on the incoming stage. Buzz Hamilton arrives back in Rawhide while Fleming and Helen are in the bank getting a loan for payment of wages for work on the dam. Roper Kilgo and Jackpot Mell meet him and he goes into the saloon with them. Helen tells him sister and Link come from the bank. Buzz has had several drinks. Roper has distorted the facts concerning the dam proposal to Buzz, making it appear that Link was trying to ruin him. Buzz, inflamed with liquor and anger, tries to throttle Fleming, who is thrown to the floor. Then Helen appears and tells Fleming she has been robbed of the fund they had obtained from the bank.

On their arrival home they were met by a couple of Link's workmen, who told Fleming that there was a strike at the dam, and that the men were afraid they would not time their wages. Link told them of the robbery and promised them their money as soon as possible. The men reluctantly returned to work.

(Now Go On With The Story)

CHAPTER XII

Half an hour after the irrigation dam workers had concluded to return to their toil, Fleming emerged from the ranch house at sound of a horseman approaching. He recognized Marty Bush, the local cattle agent. Starting to meet him, Link

Bush made no reply for a moment. "I'd like to see you hold your beef another ten days, Link. I've studied the market quite some time now, and it's my judgment you'd get more money. Steers for market ain't so plentiful, but it won't be reflected in price till shipments sag under last year's."

"Marty, just between us—and I wouldn't say this to another man in the county—Helen and I have to sell now. We've got to have cash, or else..." He gestured significantly.

"Him. Hiffard about her gettin' robbed of the eight hundred?" The agent cast a sidelong glance at Link. "Hit you purty hard?"

Fleming nodded. "Look here, Marty proceeded, "I want to see yuh get top price for your beef because you really need it so much. Wouldn't like to sell me a hundred acres of that wasteland, would yuh, Link?"

The youth laid a hand on his friend's knee. "Do you believe in the dam?"

"General opinion's against it, yuh know. And I backed out once."

"I wouldn't sell you a hundred acres of solid gold, Marty, unless you really had faith in it."

There was a full minute of silence. The cattle agent's cherubic countenance was a troubled look. Finally he said: "Link, would yuh—uh—like to borrow a couple hundred?"

Fleming was wholly surprised. He happened to know that Marty's diminutive wife, Lenore, had just recovered from a costly illness. "Thanks," he said with feeling. "I couldn't give security except my steers. I'm keepin' 'em clear because I'll need every cent they'll bring. And more, I reckon."

Bush scratched his bulbous nose. He dug inside his calf's pocket and produced a two-inch-thick packet, and tossed it on his host's lap. "Ho hum!" he yawned, rising to stretch wearily. "There's five hundred in small bills. Thought that'd suit yuh best. I got to ride over to Pidge Somers' place an' talk beef with him. So lo—"

"Marty! Well," Link confessed, exceedingly pleased as he fingered the money. "I guess you're crazy. But—oh, shucks!" he exclaimed. "I'm shore obliged!"

"No?"—mockingly. "Link, get me Triple H an' Star Loo beef to Holmes Junction early Thursday mornin', and I'll fix you up. Want cash the too, eh? So long, Link. See yuh in bankruptcy court."

While he made off on his horse Link stared at the wad of bills in his hand. Grinning, he went at length to the corral where he transferred his saddle to a skittish mustang. Half an hour later he left his mount in a patch of cottonwoods that bordered the heretofore useless valley, and started on foot the remainder of the way to the irrigation dam. It was a rocky, rather steep climb even by the well-worn trail over which every pound of material had to be transported. Link walked along feeling the bulge of the money in his pocket, his step considerably lighter than it had been an hour ago.

On a rocky eminence which overlooked the dam and the broad acres to be irrigated, he saw three figures in conference. Jackpot Mell, the gunman, Roper Kilgo, and—yes, it was Gyp Vallie.

Link paused. His fingers encountered that anonymous note he had found. On quick impulse he unfolded it, his blue knickerbocker. It was wrapped about his right hand as if he were injured, then strode casually forward.

"Here comes the guy that talks men into workin' for nothin'!" Kilgo greeted caustically.

Jackpot smiled his dry, reserved smile. Vallie darted beady eyes for a means of escape but Fleming blocked the only exit. He came on, a tolerant look on his tanned face.

"Wouldn't put it that way, Roper. The boys know it takes money, and that Helen and I are a little hard pressed right now."

"Yuh'll be harder pressed, an' then not pressed at all!" scoffed the thickest rancher.

He meant that bankruptcy would end the project. Link halted sideways to Mell. "Say, Jackpot, will you reach that package out of my pocket? Got my hand between a mare and a corral bar. Jest get that wad of money, will yuh."

All three stared from Link's hand to his trousers' pocket. They exchanged frowns of surprise. "Money?"

"Payroll money, five hundred bucks of it. Oh, by the way," Fleming added carefully as he he accepted the wad from Jackpot, "I wish you'd do me a favor, Roper. Write me a note to Marty Bush, since I can't do it myself with this bad paw."

Kilgo tilted back his sombrero and summoned a friendly look that was not deceiving. "Well—shore, I'll write yore note." He produced a

Mr. CAFFEINE-NERVES . . . he does a fade-out!

Returns To Ottawa

Domination Carillonner Has Studied

Fifteen Months In Europe

The bells that ring out from the memorial tower, and should to you hailing members of parliament and dignified Senators, are again under the direction of Percival Price, Dominion carillonner. He has returned to Ottawa from a 15-months sojourn in Europe, where he used the Pulitzer prize granted him for his "Symphony of the St. Lawrence" for further study and research of music.

High up in an office nestled like an eyrie in the tower, Mr. Price told of research in medieval city archives for ancient music, of ancient monastery chimes modern monks had forgotten how to play; of the beauty of opera in Warsaw and of the interest expressed in Canada's carillon on Parliament Hill.

So interested are many musicians, preparations are underway for an international congress of carillonners in Ottawa this summer. English, French and Belgian authorities intend to send representatives.

During most of his time in Europe, Mr. Price studied with Weingartner in Vienna. He spent six weeks in Poland, visited Rome and found interesting music in Belgium in the Brussels archives belonging to a carillon of 1648. Equally usable clavichord music was found in the Bodleian library in Oxford.

Reduce Relief Lists

Tourist Trade Expected To Give

More Employment To Women

A statement issued by the Dominion tourist bureau that the coming season is expected to be one of the most successful since the boom years prior to 1929, foretells a great reduction in the number of Canadian women on relief lists.

Out of more than 80,000 employable women on relief, according to statistics presented by Labor Minister Rogers in the House of Commons during a speech on the proposed national employment commission, nearly half come under the heading of domestic, hotel, restaurant and similar occupations. The tourist bureau believes many women under these headings will be re-employed when the tourist season gets underway.

Gold output of the Transvaal in Africa last year was 10,776,700 ounces.

Social tax is making, your company feel at home, even though you wish they were. 2147

Little Helps For This Week

Seekest thou great things for thyself? Seek them not, Jeremiah 14:5.

I would not have the restless
That hurries to and fro,
Seeking for some great thing to do.
Or some great thing to know;
I would be treated as a child,
And guided where I go.

Be little and then you will be content with little, be not overwise or eager in your own willing or desiring, and by degrees come to the knowledge of your Guide who will lead you step by step in the path of life, and teach you to follow. Be still and wait for light and strength. Sink into the sweet and blessed littleness where you live by grace alone. Contemplate with delight the holiness and goodness of God, which you do not find in yourself. How good it is to be nothing when God is all.

A Suitable Reward

"A three-happy stamp, please," said the old lady to the assistant in the post office. "And, by the way, haven't I seen you somewhere before?"

"Yes," said the assistant. "I was the man who rescued you when you fell into the river last summer at Richmond."

"Well, well," exclaimed the old lady, "in that case, I'll have twelve three-happy stamps, six penny ones, and a postal order for five shillings."

Of the 285,147 motor vehicles tested by Connecticut's official inspection system last year, 151,991, or 53 per cent, failed to pass.

What this Doctor did for Humanity

As a young man the late Dr. R. V. Pierce, practiced medicine in Pennsylvania for many years. He was a great success in alleviating disease. Finally he turned to his true calling, and put up ready-to-use form his Golden Medical Discovery. This powerful medicine has been used by millions of people. It is an alternative extract from native roots.

It helps to cleanse the system, and tends to build up the body. It is a tonic, and acts as a tonic.

IF EVERY CITIZEN WERE LIKE YOU

Here's a poser from the Glasgow Herald that will apply to any place: "Would your town be a better or poorer one if every citizen was like you? That is a fair question to ask yourself. What are you doing in the way of suggesting something for the bettering of conditions in your town? So many citizens, in fact the great majority of citizens, are content to mind their own business, and give no thought whatever of how conditions in their own town might be improved socially, from a business standpoint, educationally and morally. How many suggestions do you offer in the year as to local improvements, and how they might help start, in a small way, some new industry? In other words, is your town the better, the poorer or just of no account because of you living here? Make the people you meet from outside feel that they are the most welcome guests who ever come to town. It does not cost anything to be courteous and pleasant to those who come to town even from the neighboring villages. It is the friendly spirit of co-operation and Christian love that keeps the world going. Why not make it a community spirit? Someone has said: 'There isn't much to be seen in a little town, but what you hear makes up for it.' That is very true, but not in the way that it is intended. Sometimes what you hear in the way of gossip may tickle the ears of the evil minded and stretch the imagination of those who seem to take a delight in spreading false reports, but it is not helpful to the well being of your town."

FAMOUS OLD BUILDING IS VISITED BY MANY

Charlottetown, P.E.I., April 21.—One of Canada's historic places, the 93-year-old building of Prince Edward Island's parliament, in Charlottetown, has had its "face lifted" and now presents a rejuvenated appearance. It was in this building that the fathers of Confederation first met to discuss Union, the meeting taking place in September, 1864, and adjourned to Quebec City. The entire west wing had to be practically rebuilt and the whole of the interior has been renovated. The room in which the famous meeting took place has been re-timbered and re-plastered, but the charm of its architectural design has been preserved. In this room a register is kept, in which visitors are invited to sign their names and places from which they came. As one glances over the pages, all the provinces are found to be represented from the Atlantic to the Pacific and even the Far North. There are many names of visitors from the United States and Great Britain. France and other countries are represented. Some illustrious names appear on the pages, eminent statesmen, famous generals and representatives of royalty. At times, humor appears in connection with the entries. A famous Canadian statesman gave his occupation as "cabinet-maker" and a noted general as "warrior."

"Russia printed thirty-five million copies of full length books in 1935," states a magazine article. And most of them are probably red, says Esther.

The Pastor: "So God has sent you two more little brothers, Dolly?" Dolly (brightly): "Yes, and He knows where the money's coming from. I heard daddy say so."

TORONTO SATURDAY NIGHT IS CONVERTED

We owe it to our readers to inform them that we have become converted to the doctrines of Social Credit, not as espoused by Major Douglas, whom we have never been able to understand, but as explained to us by a recent visitor from the foothills province, upon purely mathematical principles.

Seven citizens of that province, it seems, called upon the Premier to tell him that they needed coal, and to ask him to provide them with thirteen tons each upon the social credit of the community, which was the only kind of credit they had any expectation of being able to use. The Premier gave them each an order on the government stores. But when they arrived at the government stores there was only twenty-eight tons of coal there.

Somewhat dissatisfied, they returned to the Premier and reported the situation. "Quite right," said the Premier, "but under Social Credit seven times thirteen is twenty-eight. We are changing the arithmetic books as soon as we can, but these things take time."

"How come?" asked the seven citizens. "We always thought it was ninety-one."

Not in this province," said the Premier. "I will prove it to you by addition." So he set down seven 13's in a column and proceeded to add them up. First he ran up the column of threes, which duly totalled 21; then he ran down the column of ones, calling out as he did so, "22—23—24—25—26—27—28! Just as I told you."

But the seven citizens, who had seen the coal, were still not wholly convinced, so the Premier sent them to the Provincial Secretary.

"Certainly," said the Provincial Secretary: "I will prove it to you by multiplication. Seven times three is 21, seven times one is 7; total 28. Here it is in tabular form:

13
7
21
7
28

What more do you want?"

But the seven citizens still hesitated, so the Provincial Secretary sent them to the Provincial Treasurer, who obviously must be the last word on mathematics in the province.

"Nothing simpler," said the Provincial Treasurer. "Here it is by division. Seven into 28, begins with seven into 8, goes 1, and 1 over; bring down 2, makes 21; seven into 21 makes 3." And he took a sheet of nicely embossed provincial government notepaper and set it down thus—and our friend brought us the sheet of notepaper with the figures on it:

7)28(13
21
21
21
00

And as we told you above, we are converted.—Toronto Saturday Night.

EDDIE, THE AD MAN

"GOLDY, WHEN I SEE HOW SOME OF MY PATRONS ARE MAKING MONEY BY INTELLIGENTLY ADVERTISING, I'M TEMPTED TO QUIT MY JOB AND BECOME A PROSPEROUS ADVERTISER MYSELF."

The Rocky Mountains Call

Two of the most democratic societies in the world, whose membership includes a former king and queen, famous statesmen, and common folks, all on an equal footing, are the Sky-Line Trail Hikers and Trail Riders of the Canadian Rockies, whose annual outings this year promise something new in the way of scenery and energetic healthy recreation.

The Trail Riders, whose five-day trip starts from the Banff Springs Hotel on July 31, will tour a section of the Park which was chosen by Major P. J. Jennings, superintendent of Banff National Park, for the interesting variety it offers. The centre of activities for the Sky-Line Trail Hikers, from August 7 to 10, will

be Lake O'Hara, probably the most beautiful spot in the Rockies. In both cases there is splendid fishing in swift-running mountain streams, and unlimited opportunities for the camera enthusiast.

The Trail Ride actually begins about four miles from Banff, winds its way between Mount Edith and Mount Norquay, follows Porterville Creek east of the Sawback Range, passes over Badger Pass, follows Johnston Creek down to the end of the spectacular canyon of the same name, and ends up near the highway where there is an ideal spot for the Por Wow and Sing-dong that concludes every Trail Ride outing. It provides five care-free

days with fine open Alpine meadows, high passes, good timber, and lakes and streams of great beauty.

Plans for the Sky-Line Trail Hike make provision for one central camp at Lake O'Hara. This will avoid changing camp every night as has been done in the past and will reduce the cost of the outing considerably. From Lake O'Hara the bikers will make forays of adventure over the Ross Lake trail to Lake Louise; through the Narrows Lake district; along spectacular Cataract Creek to the limpid beauty of Lake McArthur and along the McArthur creek trail; and southeast through the valleys of lofty Mounts Yukness, Hunabee, and Wenchemma.

SOME TRUTHS IN THESE!

The greatest third party risk is a parson.

A friend in need is a friend to be avoided.

Mother tongues frequently run to baby talk.

Thirty is a nice age for a woman, especially if she is forty.

When a man shines in society, he seldom shines in business.

Can we describe traffic policemen as the halt of the earth?

The man who tells us of our own faults may be our best friend, but not for long.

Perhaps the best example of a square meal is a dog biscuit.

Most motor cars are paid for as they're used, but not so rapidly.

Some people's vein of humor would appear to be slightly varicose.

A clever man can always tell a woman's age—a wise one never does.

Most married men would go out at night if they hadn't to come home again.

Luck may be a good servant, but as a master his paydays are very uncertain.

The wallpaper hanger finds business good when it drives him to the wall.

Imitation marble is being made from concrete. But we've known a housewife to do it with a handful of self-raising flour and a few currents.

ARE ALL MOTORISTS CRAZY?

In general, are all motorists crazy? In particular, is that famous motorist, Mr. Public, of sound mind?

He is told to keep his mind on the road, and then they put a radio in the car. He is told not to drink while driving, then at the latest auto show they display a luxury model with a built-in cocktail bar.

He is cautioned to drive slowly and then to be sure he is tempted to do otherwise they streamline his car for speed and step up the horse power of his motor. The ads coyly say "watch them go by" (or is it bye-bye?).—Health Digest.

An exchange says: "About the only thing that will stop falling hair is the floor." Well, what about a man's shoulder.

From Our Own Correspondents

BELLEVUE HAPPENINGS

Mrs. I. Hutton returned on Saturday from Creston, where she has been visiting Mrs. Eddy.

Miss Gladys Knowles, Mrs. Irene Ward and son Gary returned on Tuesday from a few days' holiday in Calgary.

The Misses Esther Chiarovano, Dorothy Glover and Kathleen Costick are practicing teaching at Frank, Passburg and Burnis, respectively.

Miss Joan Hampson, who has been a Calgary visitor for the past few weeks, returned to her home over the week end.

Miss Shirley Binning, of Calgary, who spent the Easter holidays at the home of Mr. and Mrs. Innis, returned to her home on Sunday afternoon.

Mr. and Mrs. McEachern and son Frank returned from Edmonton on Sunday.

Mrs. Wm. Beck left on Wednesday afternoon for Calgary.

Joe Morris, who is teaching south of Cardston, returned to resume his duties on Sunday.

Dante Pozzi, who is attending the Calgary "Tec," returned to resume his studies on Sunday afternoon.

The senior choir of the United church held a social evening among themselves on Tuesday after church practice. A dainty lunch was served by the refreshment committee. While the members were still seated at the table, Mr. Charles Emmerson, president of the choir, on behalf of the organization, presented the leader, Mrs. Upton with a beautiful silver flower basket. Mrs. Upton, in a few well chosen words, thanked the members for their thoughtfulness and the work that was done during the year. Singing and games were then enjoyed. A most enjoyable evening was brought to a close with the singing of "For She's a Jolly Good Fellow."

A very well-attended Social Credit meeting was held on Tuesday night in the I.O.O.F. hall, when Mr. Duke, M.L.A. for the Rocky Mountain constituency, addressed the gathering.

The senior choir of the United church presented Sir John Stainer's work of "The Crucifixion" in the Blaimore United church on Sunday afternoon.

COWLEY HAPPENINGS

The ladies of the Anglican church held a dance in the Lundbreck hall on Friday evening last, that was reported most enjoyable and largely attended.

Two carloads of Cowley young folk attended the dance at the Tanner school house on Friday night.

Mr. and Mrs. Joe Diamond are receiving congratulations upon the birth of a daughter on April the 12th.

Rev. A. A. Lytle, of Calgary, representing the British and Foreign Bible Society, gave an illustrated lecture in the United church here on Tuesday night. There was a good attendance.

Three carloads of gypsies, traveling westward, spent Tuesday night in Cowley.

The small son of Mr. and Mrs. Joe Diamond, who is very dangerously ill in St. Vincent's hospital, Pincher Creek, is slightly improved.

A very quiet wedding was solemnized at St. Joseph's church, Cowley, on Friday morning last at 10 o'clock when Genevieve Marie, eldest daughter of Mr. and Mrs. W. Heibeln, of Coleman, and Mr. Frederick David Emery, also of Coleman, were the contracting parties. Rev. Father O'Dea officiated. The bride was charming in a blue ensemble, with accessories to match. She carried a bouquet of pink roses and carnations.

The happy couple, who have the best wishes of a host of friends, will reside in Coleman.

HILLCREST HAPPENINGS

Miss B. C. Sellon, who has been attending the teachers' convention in Calgary, has returned.

Little Miss Doreen Currie held a birthday party at her home on Friday last.

Misses Helen and Isabel Westrup were Calgary visitors last week.

The prize money at Cole's theatre last Wednesday was won by Mrs. J. McDade.

Mr. and Mrs. W. Brushett and son Teddy, accompanied by Mrs. A. Lowe, motored to Calgary on Friday last.

The Hillcrest high school Easter party was held on Friday last. The whist prizes were won by Miss Dorothy Macdonald, ladies first, and Mrs. L. Fumigalli, second; Mrs. Panick, gents' first, and Mr. Lipnicka, second. After whist, a dainty supper was served and dancing continued till the early morning hours.

A very successful tea and sale of homecoming was held under the auspices of the Hillcrest Girl Guides in the Masonic hall on Saturday afternoon. Articles of handcraft done by the girls were on exhibition.

Miss Vincent Casagrande has accepted a position in the Blaimore telephone exchange.

Mr. C. Lawrence is visiting in Calgary.

THE PASS EIGHTEEN YEARS AGO

(The Blaimore Enterprise, 1918)

Jan. 4.—At the regular meeting of Blaimore I.O.O.F. lodge this week, William McVey became P.N.G.; Dick Randall, N.G., and Harry J. Benson, V.G.

For a whole week the mercury has hovered around 40 degrees above zero. Snow and ice nearly all disappeared.

Miss Hoar has severed connection with the Bellevue teaching staff.

Lance-Corporal Walter J. Howe has received instructions from Ottawa to proceed to Calgary to enter upon a six months' commercial course.

Born, at Lethbridge, to Mr. and Mrs. Richard Gain, a little Gain-son.

The marriage took place at Cranbrook on New Year's Day of Miss Hazel, eldest daughter of Mr. and Mrs. T. Madden, of the Windsor hotel, Lundbreck, to Mr. O. J. Sparrow, travelling representative of the Western Canada Wholesale Co., Fernie.

Mark Drumm, of the Calgary Ford agency, spent Christmas at Blossom-ranch, Frank.

Born, on New Year's morning, to Mr. and Mrs. William McVey, a daughter.

Word has been received that Harold Pinkney has been awarded the military medal for conspicuous valor in action.

Jan. 11.—A branch of the Invalid Soldiers' Welfare League was formed at Frank this week.

Teachers salaries for the year 1917 totalled \$4,887.50. Population of the school was 304.

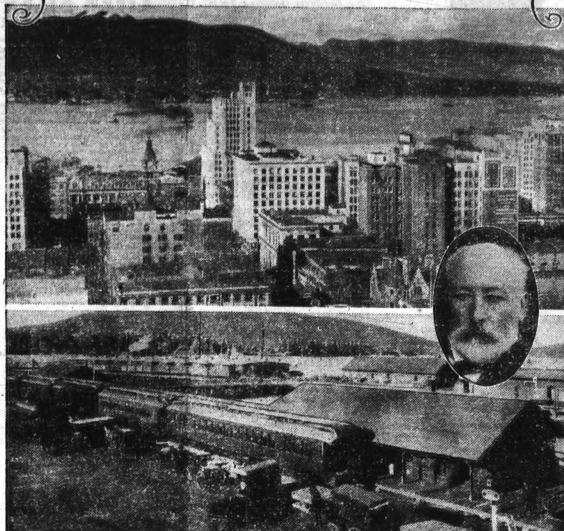

At Monday night's meeting of the town council, James MacDonald Carter was appointed to succeed Archie McLeod as town chief of police, duties to include those of sanitary inspector, waterworks superintendent, pound keeper, rate collector, assessor, etc., at a salary of \$100 a month. A by-law, covering the purchase of the electric service line from the Rocky Mountain Cement Co. for a consideration of \$2,767.87, was finally passed at this meeting, after being assented to by the ratepayers.

Miss Katie Williams has accepted a position as teacher at the Bellevue school.

A volunteer fire brigade has been organized, with Mr. A. Morency as captain.

This week Harry Stobbe was installed as W.M. of Sentinel Lodge, A. F. & A. M., Hillcrest; Samuel Mason

Vancouver's Golden Jubilee

Fifty years ago the first trans-continental Canadian Pacific Railway train from Montreal reached the Pacific Coast. This summer Vancouver, now the Gateway to the Orient and port for ships of the entire world, will celebrate the Golden Jubilee of its founding as the western terminal of the Canadian Pacific Railway. Commencing July 1 with Dominion and International Good Will Week, the programme concludes with the Canada Pacific Exhibition on September 7, and includes land and water sports, several weeks of grand pageantry, musical attractions, visit of American warships, a two-day air show with a solo flight across Canada planned as the highlight, floral decorations, visit of 15,000 Shriners in mid-July, traditional

pageantry of an Aldershot tattoo, frontier week, street dancing and costume balls, and historical exhibits arranged to illustrate Vancouver's steady progress during the first half century of its existence. Even before the beginning of the celebration proper, many colorful events will be given recognition, including Empire Day and horticulture show in May; Pioneer's festival on June 12-14; schools' programme in June; Eucharistic Congress, which will attract thousands, June 11 to 14; golf tournament, King's birthday, and religious dedicatory services. One of the highlights of Vancouver's celebration will be the re-enacting of the arrival of the first Canadian Pacific train

almost half a century ago. The venerable old engine, first to the coast, will be run again with its original pilot, W. H. Evans, at the throttle. Some of the old-timers who saw the first train arrive will also be present for the ceremony. The Canadian Pacific Railway will run tours at low cost from Eastern Canada to the Pacific Coast for the event, with stop-over privileges at Banff Springs, Hotel Chateau Lake Louise, and other famous Rocky Mountain resorts. Pictures show the old and the new Vancouver, and Sir William Van Horne, second president of the Canadian Pacific Railway, who chose the name of Vancouver in 1884 for the western terminal of the first trans-continental railway line.

W.M. of Rocky Mountain Lodge, Blaimore, and Charles Oumette W. M. of Summit Lodge, Coleman. This week the telephone apparatus was moved from the Melvor store at Cowley to the new building across the

street. Frank Wright has been re-appointed secretary-treasurer of the town for the year 1918, at a salary of \$85 per month. From a total business tax levy of

\$1690.00 in 1917, only \$178.76 was collected.

Alberta has no law to stop Mr. Abert from telling the world his goal will be reached.

HELP! HELP! HELP!

Do you know one can learn an object lesson even from the busy little house fly—the greatest believer in push and go ahead of all God's creatures. A friend of ours one time told us that he had watched the activities of several of these creatures and found that in all cases it appeared as though one fly was ever ready to help push his friend along—not backwards, but from the rear.

Be a fly, boys!

Mrs. Newlywed proudly placed the turkey on the dining 'table. 'There you are, my dear. My first turkey!' she exclaimed.

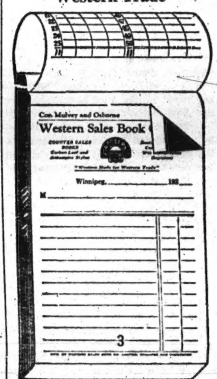

Mr. Newlywed gazed in admiration at the bird's shape. 'Wonderful, darling!' he said. 'How beautifully you have stuffed it.'

'Stuffed!' she exclaimed. 'But, my dear, this one wasn't hollow!'

Passenger: 'Have I time to say goodbye to my wife?'

Porter: 'I don't know, sir; how long have you been married?'

CHANGES IN THE B. N. A. ACT MAY HAVE TO WAIT

Ottawa.—Constitutional reform, which seemed almost a certain issue at the opening of parliament in February, will probably go over until next year, according to the best information available here.

Some weeks ago it was apparent that the efforts engaging the attention of Dominion and provinces to obtain power for Canada to amend the British North America Act without recourse to the British parliament could not succeed during the present session. It was believed, however, that certain specific amendments would be sought in a joint resolution by the house and senate. It is now considered unlikely that any amendments will be asked during the present session. A resolution is on the order paper containing a petition to Westminster to amend the British North America Act so that a loan council scheme of Dominion-provincial financing might be set up, but recent developments have caused at least temporary suspension of these plans.

At the Dominion-provincial conference in December, soon after the present government took office, it was agreed that certain specific amendments to the constitution were needed urgently. With New Brunswick dissenting, it was agreed further that Canada should obtain the right enjoyed by other dominions of amending her own constitution.

Plans were launched by which agreement might be reached on a re-enactment of the British North America Act, or a specific amendment put through, so that Canada might enjoy constitutional autonomy. A sub-committee of experts has been working to that end for many months.

Since all provincial legislatures soon will have concluded their sessions for this year the possibility of carrying out this plan during 1936 has ended. It will almost certainly be a major feature of the 1937 sessions of federal and provincial houses.

New Hospital For Aklavik

Plans Completed But Money Is Not Yet Available

Toronto.—Plans have been completed for erection of a new hospital at Aklavik, Arctic trading post in the Northwest Territories, but Rt. Rev. A. L. Fleming, Anglican bishop of the Arctic said he did not know where the money was coming from. About \$25,000 is needed for the structure to replace the hospital destroyed by fire April 6.

Contributions are coming in slowly, but it is feared the necessary amount would not be obtained in time for purchasing supplies for work this year. Bishop Fleming said: As the hospital is situated 1,661 miles north of the railway, orders for materials must be placed within three weeks if the hospital is to be rebuilt this year.

War-Type Ships Moved

Britain Sends Anti-Submarine Craft To Gibraltar

London.—With tension and uncertainty mounting in Geneva, the admiralty has moved a new, secret type of anti-submarine craft to Gibraltar to bulwark the warships scattered through the Mediterranean. Publication of the admiralty list showed 15 especially-designed ships described as mine-sweeping trawlers had arrived at Gibraltar from home ports within the last week. Most of them left the Portland base on Easter Sunday.

Five destroyers meanwhile arrived at Gibraltar from the eastern Mediterranean.

Wants To Join League

Wellington.—Prime Minister Michael Savage said that New Zealand was endeavoring to secure a seat on the council of the League of Nations in September in succession to Australia. He said that if a New Zealand cabinet minister was then in Europe he would take precedence over the high commissioners as the representative of the island Dominion at Geneva.

Tenders Accepted

Ottawa.—Finance Minister Dunning announced tenders had been accepted for the full amount of \$25,000,000 Dominion of Canada treasury bills due July 15. The average discount price of the accepted bids was 99.78138 and the average yield was .879 per cent.

Canada's Resources

Development Of Our Natural Resources Will Set New Pace

Montreal.—Development of Canada's natural resources during the next 25 years, if there is peace, will grow more than it has during the past 75, Dr. H. M. T. T. of Ottawa, former president of the University of Alberta and honorary director of the Association of Canadian Clubs, said at the annual meeting of the Women's Canadian Club here.

There was every justification for an optimistic attitude in Canada he said. The right combination of land and climate had created conditions to make a civilization. "Canada was a large country, communications were easy, centres of population were close at hand, he continued. The people, the two greatest civilizing and dominating races in the world combined into one nation, were virile, intelligent and progressive."

The past generations had made a magnificent job of Canada, Dr. T. said. Mistakes had been made, he admitted. Canada was even now paying the piper for stupidity in early transportation development, but, he said, there never would have been a Canada had it not been for the railways.

Dr. T. praised the tendency to study national problems. Unity must be maintained, he said, and provincial barriers should be broken down even more than they now are. Canada must take leadership in intellectual movements, he concluded, for an educated people was the foundation of civilization.

Will Not Consider Plan

British Columbia Not Interested In Creating Provincial Bank

Victoria.—Premier Pattullo of British Columbia arrived home for a brief visit before returning to Ottawa for continuation of negotiations with the Dominion government which were interrupted by the Easter holidays.

The premier, who arrived by aeroplane, said discussions between British Columbia and the federal administration do not concern the receipt of Dominion aid in connection with a \$3,500,000 bond issue maturing May 15, but rather settlement of general policies. These policies, he said, include relief, financing and other.

"British Columbia has no thought whatever of creating a provincial bank, and has not for a minute considered it," he said in reference to a recent announcement the government of Alberta would suggest operation of the coast province with Alberta in establishing such a bank.

Caused Much Discussion

Members At Geneva Are Divided Over Regional Leagues

Geneva.—A move by some of the Latin-American countries to create an all-American League of Nations caused much discussion and sharply divided reaction here.

Some league circles feared this would be the beginning of disintegration of the Geneva institution. Others, however, believed these regional leagues could constructively dovetail into a universal League of Nations.

League officials said they were convinced economic and financial sanctions must be applied universally against any aggressor nation, but they believed these regional groups could liquidate regional conflicts and apply military sanctions in case of necessity.

Appeal For Medical Aid

London.—The government has turned over to the British Red Cross an urgent appeal from the Ethiopian government for medicine and physicians to treat poison gas casualties. The appeal said more than 1,000 sufferers were in the most acute distress due to the government's lack of knowledge for treatment.

Compulsory Subjects

Toronto.—English, social sciences, health education and business practice are to be compulsory subjects under the revised course of study to be introduced soon in Ontario schools. Hon. Duncan McArthur, deputy minister of education, told the public school department of the Ontario Education Association here.

Negotiations Dropped

Calgary.—Negotiations for the sale of the Alberta government telephone system to a United States syndicate have been definitely dropped for a year at least, Hon. W. A. Fallow, provincial minister of public works and telephones, stated here.

Advocates Mining Policy

Would Cure Canada's Unemployment Opinion Of Supreme Court Judge Vancouver.—Mining directly and indirectly could take every able bodied man presently unemployed out of unemployment, Mr. Justice A. M. Manson of the Supreme Court of British Columbia said in an address to the annual meeting of the British Columbia division of the Canadian Manufacturers' Association.

He advocated a Canadian national mining policy and a conjoint policy between the Dominion and the mining provinces—"a policy that will give to those who hazard their money in the development of our natural wealth, and so often lose it, a chance to get their capital back—no taxes for the first years of production."

"Such a policy," continued Mr. Justice Manson, "should stabilize mining taxation for a period of years. It must do that if we are to induce capital from abroad to come to Canada. Mining capital will not venture on a big expenditure knowing that at the very moment it brings a mine to production its margin of profit may be eaten up by increased taxes, Dominion and provincial. Such a policy should fix the rate of taxation so that it will be possible to recover the maximum of low grade ore."

MANY MATTERS CLAIM ATTENTION OF PARLIAMENT

Ottawa.—Interest in parliamentary activities from now to prorogation will be divided among the red and green chambers and the half dozen committees which are faced with heavy agendas and which have not yet really commenced their work.

Radio, railways, pensions, election, privileges of the house speaker and agriculture are subjects of special committees of the house, and all are expected to ask for permission to sit while the house is sitting, which will mean many empty seats in the green chamber from now on.

Of outstanding public interest will be the committees on railways, radio, pensions and agriculture. Election reform will be dealt with at some length, but no legislation is expected at the present session in view of the fact it is not likely to be needed for some years. Questions of privileges of the speaker during the interim between defeat of a government and election of a new speaker will deal with matters of procedure.

To the railway committee will go a bill to nullify the Canadian National-Canadian Pacific legislation of three years ago under which the board of directors was replaced by a board of trustees. It is now the intention to restore the director system and the whole question of government railways and their huge annual deficits will probably be threshed out in committee.

THE CORONATION CHAIR IN THE KING'S CHAPEL

The Coronation Chair, made by Walter, the King's painter, at the command of Edward I. (1300-1301), to contain the stone of Scone, brought by the King from Scotland, will be used by King Edward VIII. when he is crowned during the Coronation in May 1937. In this chair every Sovereign has been crowned since King Edward II. The famous stone is under the seat of the chair.

PARALYZED PILOT

Although she has never walked since an attack of infantile paralysis at the age of three, Miss Betty Snell, of St. Thomas, Ont., recently won her private pilot's license. Miss Snell, who has to be carried to her plane and lifted into the cockpit, seeks to become a commercial pilot.

Feted By Countryman

Canadian Club Of New York Honors Edward Johnson

New York.—Edward Johnson, manager of the Metropolitan Opera who has concluded his first season with great success, was feted by fellow countrymen at the annual reception and presidents dinner of the Canadian Club of New York.

The club president, Ernest W. Appleby, included the honors of the evening he shared by Mr. Johnson.

Mr. Johnson told the distinguished company gathered in the club quarters, of his plans to spread "the love of opera" to the masses, through the press and over the air. Another means to this end would be the Met's spring season, opening in May, at prices ranging from 25 cents to \$10.

Named For Peace Prize

Forty Different Countries Have Suggested Dowager Lady Aberdeen

London.—The Dowager Lady Aberdeen, wife of the former governor-general of Canada, whose name has been put forward as a candidate for the Nobel prize in her capacity as president of the International Council of Women, received the support of women's organizations in all parts of the world from the beginning.

Her name was submitted from 40 different countries where the National Council of Women affiliated to the International Council have, under her guidance, worked steadily in the cause of peace for several years.

Fears Of Potato Shortage

Crop Report Shows Farm Stocks Lowest Since 1930

Ottawa.—Fears of a potato shortage in Canada appeared well-founded after release of a crop report by the Dominion bureau of statistics.

Lowest since 1930, farm stocks of potatoes at March 31 were 11,047,000 cwt., compared with 19,740,000 cwt. the previous year, the report said. The reductions were general throughout the maritime and eastern provinces. In addition the report said 2,249,700 cwt. or 5.6 per cent. of the 1935 crop were not of merchantable quality. This compared with 2,176,000 cwt. or 5.1 per cent. of the 1934 crop.

Before the bureau report was issued, M. G. McNeely, president of the Prince Edward Island Associated Shippers, said he believed Canada would be faced with an "absolute potato famine before May 1." Prince Edward Island had the "only potatoes in the maritime provinces," he said. New Brunswick's supply had run out as had surplus stocks in other potato growing provinces.

Italian People Discontented

Becoming Hostile To Fascist Regime Says Expelled Writer

London.—The Italian people have become increasingly hostile to the Fascist regime, whose war policy, even the most ardent supporters, has "impoverished the country," Giovanni Giglio, former Rome correspondent for the Daily Herald, declared in that newspaper.

Giglio, who was recently expelled from Italy by Premier Mussolini's government, emphasized the Italian masses, conviction that Il Duce's African adventure is driving them to ruin.

"They understand," Giglio asserted, "that whether war brings them victory or disaster, their country will be completely impoverished and that for the next 20 years at least Italy's exports will be negligible."

The rise in the cost of living has been a large factor in popular discontent, the writer stated.

GREAT ACTIVITY IS EVINCED IN MINING INDUSTRY

Ottawa.—Mines Minister Crean announced completion of 15 preliminary reports based on last year's \$1,000,000 geological survey program and said Canada mining, prospecting and exploration companies this year would be able to send men to the field equipped with a greater wealth of information than ever before.

The coming season, the minister said, promises to be the most active in the history of the Canadian mining industry and it will provide the first opportunity of testing the value of such exploration projects as that launched by the government last year. Those projects sent to the field close to 190 field parties comprising about 1,000 men.

Mr. Crean said the information gained by the parties "will be a powerful factor in mineral development for many years to come." He emphasized that the reports already available had been rushed and turned out in mimeographed form with provisional maps to be used by prospectors planning an early start of the season.

Other reports are being rushed to completion now. The minister said that "the demand for the reports suggests that the many areas recommended for prospecting will receive considerable attention."

In a resume of the work the minister said the reports detailed work in four areas in Quebec, three in British Columbia, two in Ontario, two in Saskatchewan, and one each in Alberta, Manitoba, Yukon and the Northwest Territories. Many thousands of square miles of favorable prospecting ground, much of which has received little or no attention, have been delimited and vital geological knowledge has been gained on areas now being actively prospected and developed.

A large, readily accessible area in Yukon is defined in one report as practically virgin prospecting territory. Beyond a limited amount of placer gold prospecting, and some more or less incidental prospecting for lode gold deposits, the area has apparently been largely neglected.

Approximately one-third of the 10,000 square miles of territory examined in the Yellowknife river region, Northwest Territories, is reported excellent prospecting ground for precious metals.

SURVEYS TO BE CONDUCTED ON A WIDE SCALE

Ottawa.—The intensive survey program of the Dominion department of mines, inaugurated last summer, will be continued this year, departmental officials said.

This will be welcomed by university students anxious for work during the summer holidays. Last year about 800 science undergraduates were given jobs in this work and it is expected almost as many will be needed this year.

The surveys will start earlier this season. The money was not available last year until late in June and the parties were not in the field until July.

The vote last year was \$1,000,000 and all but \$150,000 spent. This balance is available for this year with a vote of \$1,000,000 in the main estimates, bringing the total up to \$500,000. Of last year's vote, however, \$200,000 was spent on equipment for the 190 parties. This equipment will be available this season so that if there is no further vote in the supplementary estimates there will be almost as much money available for actual survey work as last season.

Last year 800 boys with some 200 experienced men were sent into the wildest country from the Atlantic to the Pacific. Only one life was lost, a regular employee of the department was drowned. Another man working in northern British Columbia had his leg broken and had to be taken by aeroplane to civilization. Otherwise the entire project was remarkably free from accidents.

One project seeks information on water supplies in certain sections of Saskatchewan.

More Sabotage Suspected

Flywheel Ropes Severed On Machine In Sheffield Factory

London.—The Daily Mail said another case of suspected sabotage in connection with defences was being investigated at Sheffield.

This attempt, the newspaper said, was an effort to sever the ropes of a giant flywheel in the engine room of a factory engaged in the manufacture of steel and wire for aircraft and torpedo boats.

"There is no doubt if the speed of the flywheel were increased without discovery, there would be a terrible havoc," the paper quoted Arthur S. Lee, one of the heads of the manufacturing company as saying. "The whole plant would have been smashed."

Ethiopia Needs Money

Is Planning To Float Loan In Great Britain

London.—A public loan to aid Ethiopia in its war against Italy, amounting to £500,000 (\$2,500,000), will be floated here, the engine room of a factory engaged in the manufacture of steel and wire for aircraft and torpedo boats.

Servicing of the obligation will be assumed by the Bank of Ethiopia, financial sources indicated. The loan will bear six per cent. interest. The bonds, nominally worth £100 (about \$500) will be issued at £95. They will mature in 1941.

Alberta's Fuel Oil Tax

New Act Passed By Legislature Is Effective May 1st

Edmonton.—The new fuel oil tax act passed at the last session of the legislature, under which the provincial government expects to raise \$200,000 additional revenue this year, is to be effective on May 1. The tax is broadened to cover all lower grades of fuel oil. The tax is seven cents per gallon, with a rebate of six cents when the fuel is used for farming or industrial purposes.

Newspaper Man Dead

London.—The death is announced in Glasgow at the age of 74 of John Westwood Oliver. Fifty years ago he was one of the first newspapermen to travel across Canada on the newly-built Canadian Pacific Railway. He wrote a number of special descriptive articles for Scottish newspapers.

Apostolic Appointment

Vatican City.—Mgr. Turqueti, apostolic vicar of Hudson Bay, is named superior of the St. Mary Immaculate missionaries working in his vicariate.

Local and General Items

S. G. Bannan and family were motor visitors to Calgary last week.

The federal government has decided to close the customs office at Drumheller.

The condition of Capt. W. A. Beebe, who is a patient in the Hillcrest hospital, is reported unchanged.

W. H. Moser and his Cranbrook pupils are staging a string concert recital in the United church hall at Cranbrook tonight.

Rev. Roy Taylor, M.L.A., pastor of St. Paul's United church, Coleman, has asked the stationing committee for a change of pastorate.

Britannia Paint Works, of Bellevue, have secured contracts for considerable interior decorating at the Cosmopolitan and Greenhill hotels.

Monday next, May 4th, will be observed in Alberta as Arbor Day. It is not a general holiday, but only observed by government offices and some schools.

His Majesty King Edward VIII. has graciously consented to become patron of the Boy Scouts Association, in succession to his father, the late King George V.

Bells of the capitol in the peace tower on Parliament Hill, Ottawa, sounded out a hymn of thanksgiving over an exultant city when news arrived that rescuers had reached Dr. Robertson and Alfred Scadding.

In Portland, Oregon, if you drive recklessly, the first available policeman will arrest you, and if it was a citizen who told the officer about you, the city will pay said informant \$100 if you are convicted. That and a few other things are what Portland is doing in an attempt to put teeth into a traffic safety drive. A civic accident prevention committee has figured largely in the organization of the campaign against the death driver.

A tax sale that cost \$400 netted the city of Calgary \$100.

Mrs. C. A. Fraser was in Edmonton last week, attending an I.O.D.E. conference.

A. Picco, of the Natal Trading Co., died at the Michel hospital last week end, following a very brief illness.

Radio broadcasts from the Moose River mine in Nova Scotia were received here quite clearly over short-wave sets.

E. O. Duke, M.L.A., has been in the Pass all this week, conferring with local constituents on various matters of local district interest.

Miss Marion MacDonald came down from Calgary last week end to pay a surprise visit to her parents. She returned to the city on Sunday.

On Sunday next, April 26th, Odd Fellows throughout the world will observe the anniversary of the founding of the Order by attending divine service.

Joseph Ulrich, of Hillcrest, second year motor mechanics student at the Institute of Technology, Calgary, has accepted a position with the Crown's Nest Pass Motors here.

The marriage was solemnized at Lethbridge, yesterday afternoon of Agnes, youngest daughter of Mr. and Mrs. David Kemp, to Thomas, third son of Mrs. S. McKay, both of Blairmore. The groom is a member of the staff of The Enterprise.

Over-dramatization of reports from Moose River mine by press and radio was rapped by Premier Angus L. MacDonald, who was obliged to issue a warning against the publication of "colored" or "untruthful" stories concerning the underground imprisonment of Dr. Robertson and Alfred Scadding. It nearly resulted in newspaper representatives being banned from the area.

IT IS EASY TO BUY ALABASTINE

5000 Hardware, Paint and Departmental stores in Canada have it. Alabastine is a household word for low cost, and sanitary wall decoration. Ask your dealer.

Gypsum, Lime and Alabastine, Canada, Limited
PARIS, ONTARIO, CANADA

Mr. and Mrs. Sidney White spent a portion of their Easter vacation with friends in High River.

Another carload of Plymouths and Chryslers was unloaded here during the week, consigned to Blairmore Motors.

In 1935, up to April 18th, admissions to the Clarendon hospital were ninety. This year, up to the same date, the admissions have been 140.

An exchange noted this: Attorney-General Huggill has quite a sense of humor. He told a Calgary audience that "there was not room in Alberta for party politics."

One glancing over the pages of a Nova-Scotia newspaper nowadays must realize that they have just as much sympathy for a person dying as they have for those getting married.

In just a week more, Alberta newspapers are threatened with the loss of well over \$100,000 annually because premier Aberhart says it's immoral. But the Social Credit leader mean while plans for increased government profits through increasing its interest in the liquor game.—Hanna Herald.

Rendition of Stainer's "Crescifixion" at the United church on Sunday afternoon proved a treat to those who were fortunate enough to be present. The Bellevue United church choir of twenty-seven voices was led by Mrs. R. Upton. The programme occupied one hour and fifty minutes.

A young married man suddenly began calling his wife Angel. One of his friends, becoming curious, asked him the reason. The young man gave the following: First, she was generally up in the air; second, she was always harping on something; third, she kept saying she never had an earthly thing to wear.

New Zealand bought 48 per cent more in value of goods from Canada during 1935 as compared with the previous year. Noteworthy among the increases, in order of percentages, were automobiles; lorries, trucks and chassis; newspaper; silk and artificial silk piece goods; tires; flour; agricultural machinery; tinned fish; gum boots; rubber footwear; leather footwear; iron and steel pipes; adding machines; hardware; plate and sheet copper; apparel; fencing wire; radio receivers; auto parts.

The Okotoks Review remarks: "We are not opposed to Social Credit as Social Credit. Nothing would please us more than to see it successfully put in force. We have never had the slightest confidence, however, in the practicability of the theory as applied to the province of Alberta. And we don't believe that anybody's confidence in it has been strengthened by the events which have transpired since the election eight months ago, especially the correspondence between Premier Aberhart and Major Douglas."

Mrs. Duncan Robertson, of Calgary, formerly Mary, eldest daughter of Mr. and Mrs. John McAndrew, former residents of Blairmore, is wife of Dr. Robertson's nephew. The McAndrew family and the Robertsons, of Calgary, were therefore much interested in the great fight being made to rescue Dr. Robertson from the Moose River mine. Dr. Davis, Nova Scotia minister of health, who also figured prominently in the rescue efforts, is a brother of Miss May T. Davis, of Calgary, a former member of the Blairmore teaching staff.

A man may look his age, but a woman overlooks hers.

Born to Mr. and Mrs. Thomas McKay, a daughter.—Millpond note in Nova Scotia paper.

"Dye comes from fish," says an exchange advertisement. Yea, and "lie" comes from the fisherman.

A heading in an exchange reads: "Why do men suffer?" Well, that's just what we'd like to know.

Born, at St. Vincent's hospital, Pincher Creek, on April 12th, to Mr. and Mrs. J. Diamond, of Lundbreck, a daughter.

A concert, under the auspices of the Salvation Army, was staged in the auditorium of the United church last night, and was well attended.

First Group Girl Guides' tea and sale of home cooking, held in the Anglican hall on Saturday afternoon last, was fairly well patronized.

In 1921, the average doctor in Alberta issued 88 prescriptions per month for liquor. And they were privileged to charge \$2 each—half the price of a good sized bottle today.

A survey has elicited the fact that a very large portion of Alberta's bonds are held, not by the so-called money barons, but by poor people of Alberta. In some cases, the interest from their savings constitutes their only income.

While a number of train service changes are being made on the system, effective April 26th, the Canadian Pacific Railway announcements indicate no local changes and that changes to be made will not affect local connections.

The sudden change in the morals of our young folk on May the first will be worth watching. From that date on they will know that to see a liquor-label or advertisement they will have to gather up empty bottles from the gutter or scan the pages of papers produced outside of Alberta.

Already the expected reaction to Aberhart's ban on liquor advertising in Alberta is being realized. Papers in neighboring provinces are sharing the money that was coming into Alberta from outside points, and a small volume of matter is appearing through the mails in pamphlet form.

Business men of Vulcan were worried this week by the local detachment of the R.C.M.P. to be on the lookout for counterfeit \$10 Bank of Canada notes. A photostatic copy of one of such bills was shown around so that all might acquaint themselves with the bogus money. The bills in circulation are that of a \$2 Bank of Canada raised to a \$10. The work of the counterfeiters is clever and deceptive. However, careful examination will reveal plenty of errors.—Vulcan Advocate.

At a recent communion service in Greenfield Park, Montreal, there were added to the roll of this and an associated congregation, thirteen young men and nine young women. The reception included four brothers, and all those young people were received upon profession of faith. Dr. E. H. Gray and the officials of the church were gratified with the progress of the charge, and we understand that the amount contributed to the Missionary and Maintenance Fund was the largest in the history of the congregation.—The New Outlook.

Local and General Items

A pedestrian is a man whose son is home from college.

FOR SALE—Two Fireproof Safes. Apply Blairmore town office.

The compulsory school age in British Columbia has been changed from seven to six years.

And we will know that good times are back when bill collectors no longer wear a defeated look.

An exchange says: "Lethbridge was the hottest spot in Canada on Sunday, April 12th." Well, where's he'll?

The Crows' Nest Lake Pavilion will be reopened for the season tonight, when the Arcadians will furnish the dance music.

STAMP COLLECTORS: Available, First Flight Covers St. Anthony (Newfoundland); North Sydney to St. John's; Labrador. Apply Mrs. W. J. Bartlett.

A native bush of Ethiopia, called nigabrowbe, has a root, which, when dried, ground and mixed with tobacco will kill the smoker who takes more than three puffs.

Dr. L. W. Walkey, who since 1922 has practiced medicine at Pincher Creek, but who recently qualified for the treatment of eye, ear, nose and throat at Chicago, has moved to Lethbridge, where he will devote attention to that line.

Wanted, a retailer who can memorize just what goods are subject to the sales tax and what are not. Some of the members of the government should have tried that out for their own benefit. They'd be in a position then to properly sympathize with the poor humble retailers.

Theola, seven-year-old daughter of Mr. and Mrs. O. C. Neilson, Cardston, was instantly killed when the car in which she was riding with her father turned over on the Carway highway on Sunday evening. Mr. Neilson is a teacher in the Cardston public school.

Alberta bonds were quoted this week at around 76.

Colonel Hugh Clark, of Toronto, is visiting in High River with his brothers, Charles and Neil Clark.

John Brennan, night operator at Coleman C.P.R. depot for several years, has been transferred to Al-daryde.

Frank and Joseph, twin sons of Mr. and Mrs. Evan Morgan, who are attending the Alberta University, were home for the Easter vacation.

August Castius, aged 73, resident of Bellevue for the past twenty-five years, was found dead in his home yesterday morning, victim of heart attack.

As one member of The Enterprise staff was being joined in matrimony, another member of the staff also needed someone to hold his hand—and the other member endeavored to act neutral.

An inventor has been advertising for suggestions for things that ought to be invented. For a start, we suggest the homing collar stud, a boneless kipper, the anti-splash grapefruit, the musical golf ball, and the silent spoon.

IT RESTS with you whether you will gain health or grow less fit, day by day. You can turn food into health. Stop dosing up with make-shift tonics. Eat plenty of

MOTHER'S BREAD

The loaf that assures health and enjoyment in the same mouthful. Fine texture, tempting flavor, high food-value in one delicious loaf.
